

YOUR BUSINESS IS AT RISK.

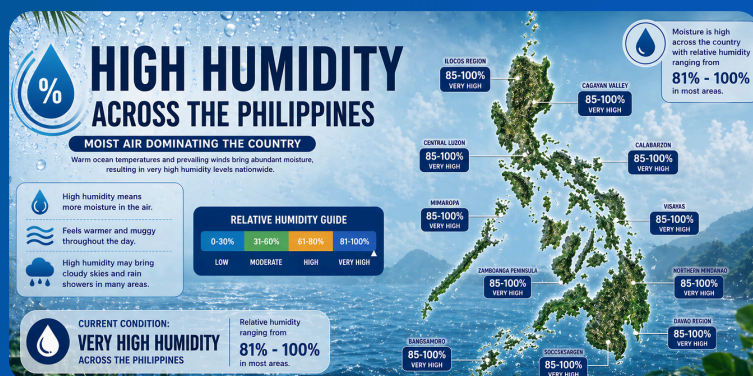

THE DANGERS OF HIGH HUMIDITY

Labels in the background include: HIGH HUMIDITY RISKS, MOLD GROWTH, PRODUCT DAMAGE, CORROSION, and LALAL.

Vol.1 No. 1

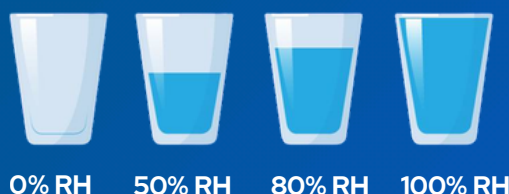

Philippine's Climate: The Invisible Operating Cost

The Philippines operates under a Tropical Maritime Climate characterized by High Temperatures, High Humidity, and Significant Rainfall influenced by seasonal monsoon systems, resulting in wet periods and high moisture levels 10 out of 12 months in a year.

What is Relative Humidity RH%?

RH Represent the amount of water in the air in Percentage

How is Humidity (RH%) measured?

Hygrometer

A *Hygrometer* senses moisture in the air and shows how "full" the air is with water as a percentage.

When High Humidity Becomes a Business Risk

High Humidity becomes a **Business Risk** by triggering molds, accelerating corrosion, damaging inventory, causing product spoilage, degrading equipment, reducing comfort, and increasing maintenance costs, leading to operational delays and financial losses.

HUMIDITY LEVEL (% RH)	RISK LEVEL	UNIQUE BUSINESS PROBLEMS & RISKS			
90%+ RH	 EXTREME RISK	 Product & Inventory Damage	 Severe Corrosion & Material Deterioration	 Microbial Growth (Mold, Bacteria)	 Operational Paralysis
80%–89% RH	 VERY HIGH RISK	 Electronics Degradation	 Heavy Mold & Mildew Growth	 Product Deterioration & Spoilage	 Health Risks & Reduced Performance
70%–79% RH	 HIGH RISK	 Corrosion & Oxidation	 Reduced Product Quality	 Inventory Deterioration	 Warping, Swelling & Material Deformation
60%–69% RH	 MODERATE RISK	 Mold & Mildew Growth Begins	 Surface Moisture & Condensation	 Lower Equipment Efficiency	 Higher Energy Use (Cooling/Dehumidification)

Possible Sources of Humidity

How to Manage High Humidity?

Manage **High Humidity** by monitoring RH% levels, using **Commercial Dehumidifiers**, improving ventilation, sealing leaks, etc. Consult with **Professionals** for ideal Equipment type , Capacities and Required RH% levels for your business operations and products .

Commercial & Industrial Dehumidifier

Let's Fix Your Humidity Problems Today.
